

Secret Cottage – October Reviews

We now have over 1,200 5-star reviews and are pleased to be able to share them from Trip Advisor. If you would like to read more reviews about the Secret Cottage Tour, then please click to Trip Advisor.

A Day to Remember...

What a fantastic way to spend a day in England! It is a very easy day trip from London – although if I do it again, I would definitely spend a couple of days in the Cotswold region. Our guide, Scotty, was a local and a wealth of knowledge. He was friendly and always made sure everyone was comfortable. Becky's home is beautiful and I fell in love with the kitchen! Especially the AGA stove and the spiral cellar was a complete surprise and so cool (literally and figuratively). Pauline, Becky's daughter, created beautiful presentations of the food with each stop at the cottage. The food was delicious and way too much for just the three of us on our tour that day. I highly recommend that you don't eat before the start of the tour, because by the end of the day you will be completely stuffed. It was a beautiful autumn day with perfect weather so we were able to enjoy our lunch outside in their beautiful garden. I had never seen a thatched roof cottage in person, and it was like out of a fairy tale. You will see villages with manors, towns, Welsh Black cows, sheep grazing, horses and many beautiful vistas throughout the day. Don't miss this

tour – it was one of the best I have ever taken! You will not be disappointed! *Kristen, Wilmette*

Great Tour!

I just finished this tour today and if you've never been to the Cotswolds then this is a great introduction tour to the area and worth the money. Our tour guide, Scotty, was excellent, very knowledgeable about the area and very personable. Unfortunately, it was a rainy day but despite that, I had a great time and was glad I went on this tour. Also, I should mention they feed you good food so don't eat before you come on the tour. You start the morning with pastries and tea, get lunch, and then get afternoon tea with homemade goodies. We got to meet Becky and her daughter, who did an excellent job preparing the food, and her son. I would recommend this tour 100%. *Bletch Park, San Francisco*

Outstanding!

Wow! Great tour. Great food. Amazed at the assortment of desserts/food. Thank you Polly! The tour itself was one beautiful stop after the next. Our tour guide Robin was very informative and engaging. Don't miss this one. You won't regret it! We would love to come back for the Mystery Tour. Thanks all!

Great Day in the Cotswolds...

My wife and i were excited to be able to spend the day with Becky touring the Cotswolds.

The tour was wonderful and I have never had a more gracious Hostess. Lunch and snacks were great and we both left saying this was a great trip. Next time in the area, we will book another tour with Becky! *C.Wright, Arkansas*

Peace and Beauty and Wonderful Foods...

My husband and I recently spent thirty-three days on a belated honeymoon in the U.K. and Ireland. We went on two five day

tours, two three day tours, and nine one day tours. By far, the "Secret Cottage" tour was my favorite and in my husband's top four. (He is a history buff and the stones were his love). Our guide, Dave, was wonderful, the visit for three separate meals in the four-hundred-year-old cottage was delicious, and the various cottages and villages we visited were so charming. I would put at the top of your list of "to do's" if you like gardens and good food and picturesque cottages...

Best Way to See the Cotswolds...

One of the best parts of my trip to the UK. They were very accomodating to food allergies and provided us with delicious food. Our guide Dave was awesome and patiently answered all our questions not only about the Cotswalds but any random questions about the UK's history and its ramifications today. Definitely one of the most original tours I've been on. The only thing I could suggest that we wanted more of, was more time at different stops. We felt that sometimes we were a little pressed for time at different locations. Thanks for an unforgettable tour! *Heather*

Cotswolds – Classic Countryside...

AMAZING !!!! Becky & Robin are the perfect hosts for an incredible day of custom touring around quaint villages in the beautiful English countryside in your own private van with an expert driver/guide. Robin (our # 1 guide) was a wealth of knowledge and injected just the right amount of British humor into our day. Becky's ultra-tasty treats enjoyed in her fairytale cottage were a warm and cozy welcome in between drives. This is THE TOUR to take if you want to experience English hospitality at it's best!!!
